

M. Muaz Waseem

Software Engineer – Front End

Phone: +92 315 2547742

Email: muazwaseem88@gmail.com

Portfolio: www.ghazimuaz.github.io

About me

Frontend Developer proficient in React.js, Next.js, TypeScript, and Tailwind CSS, building responsive and user-focused web apps. Experienced in e-commerce, P2P lending, and pet care, delivering high-quality, scalable solutions. Skilled in API integration, performance optimization, and UI design, using cloud architecture and AI tools. Focused on modern design, maintainability, and collaboration.

Experience

Software Engineer/React JS

9exgen solutions, Lahore • March 2023 – Present

- Develop and maintain dynamic web applications using React.js and Next.js, ensuring adherence to best practices in component based architecture and reusable code.
- Troubleshoot and debug issues across various frameworks and technologies, consistently delivering high-quality solutions.
- Ensure applications meet accessibility standards (e.g., WCAG) for an inclusive user experience.
- Design and implement visually appealing and responsive UI components using frameworks such as Material UI, Ant Design, and Tailwind CSS.
- Collaborate with backend developers to integrate and consume REST APIs, ensuring smooth data flow and robust application functionality.

Frontend/UI Developer

9exgen solutions, Lahore • July 2021 – March 2023

- Built interactive, user-friendly interfaces using HTML, CSS, and JavaScript, ensuring a seamless experience across multiple devices.
- Optimized web applications for performance, improving load times and responsiveness.
- Ensured compatibility across all modern browsers and devices to deliver a consistent user experience.
- Created responsive layouts using modern front-end tools and frameworks, including React.js, Next.js, and Tailwind CSS.
- Worked closely with cross-functional teams to ensure timely delivery of projects while maintaining high-quality standards.

Intern – Frontend/UI Developer

9exgen solutions, Lahore • April 2021 – July 2021

- Assisted in developing frontend components for web applications using React.js, ensuring responsive and accessible design.
- Gained hands-on experience in front-end technologies, including HTML, CSS, JavaScript, and various UI frameworks.

Tech Stack
